## STRIKERS SUSTAINED BY 60,000 WORKMEN

United Mine Workers of America Officially Recognize the Strike

PREST. GOMPERS CALLED UPON TO RALLY AMERICAN FEDERATION

Coal Famine in San Francisco Imminent as a Result of the Strike - Steel Magnates Making Further Combinations Against Strikers.

PITTSBURGH, Aug. 10.—The general strike order of President Shaffer of the Amalgamated Association becomes effective today, and the army of steel, iron and tin workers are expected to throw down their tools at the close of the last turn tonight. Close approach of the final hour has produced no appreciable change here, and as yet there has not been a ripple of excitement. Strong appeals have been made to both president Shaffer and president Gompers, asking that they throw their influence toward settlement, and various plans for avoiding a general strike have been discussed and offered by disinterested men on the outside. There may yet come a powerful peace maker with a form of compact that will be accepted by both sides, but for the present the strike seems inevitable.

PITTSBURGH, Aug. 10.—Officials of the American Tinplate Co., issued a statement today announcing that it was their intention to dismantle and remove to Monaca certain of their mills tied up by the strike.

NEW YORK, Aug. 10.—The announcement is made that 60,000 workmen in this city are ready to join in a sympathetic strike when requested by the Amalgamated Association of iron and steel workers.

INDIANAPOLIS, Ind., Aug. 10.—The Executive Board of the United Mine Workers of America has officially recognized the steel strike. Today a resolution endorsing the action of the Amalgamated Association, pledging the support of the miners, and calling on President Gompers to call a meeting of the president and secretaries of all the bodies connected with the American Federation of Labor to meet and devise plans of aiding the strikers was adopted.

INDIANAPOLIS, Aug. 10.—This action following closely, as it does a public statement of the president, in which he promises to aid the strikers is regarded as significant, as it is the first movement toward uniting all organizations connected with the federation in supporting the steel strike.

It is also taken as an indication that officials of the mine-workers most powerful organization in federation apprehend that the struggle between the steel trust and its men may eventually involve the entire federation, if principles of unionism are to be preserved.

SAN FRANCISCO, Aug. 10.—The Chamber of Commerce has sent a communication to Mayor Phelan calling on him to take decisive action to remedy the

condition of affairs in this city caused by the strike. The Mayor is asked to issue a proclamation declaring that acts of violence and intimidation must cease and making it clear that the city is responsible for all damage caused by riotous disturbances.

If the Mayor has no authority to increase the police force he is requested to ask for State aid. In a conversation with Governor Gage, Mayor Phelan stated that the local authorities were fully able to cope with the situation and that he did not apprehend any serious trouble. Governor Gage said:

"Thus far acting has occurred during the strike which requires my attention in an official capacity."

Representatives of the labor unions have informed the grain merchants that no exception to the strike order can be made in favor of vessels loading at Port Costa.

The scarcity of coal is becoming apparent. Nearly the entire supply at the various bunkers has been exhausted. A number of coal-laden vessels are tied at the docks, but only one is being unloaded.

NEW YORK, Aug. 10.—It is reported in well-informed circles that the United States Steel Corporation has made certain advances to the managers of the Tennessee Coal & Iron Company and allied industries in the South by which all the Southern iron and steel works will come under the control of the United States Steel Corporation, says the Tribune. While the report mentioned could not be verified in official quarters, it was said on excellent authority, that negotiations have been under way for the past year for the purchase by the big steel trust of the Tennessee Coal & Iron Company.

It is also learned that leading interests in the United States Steel Corporation have been in conference with the banking powers behind the Tennessee Coal & Iron Company, but the result of the conference has not yet been known. A few months ago the United States Steel Corporation submitted certain proposals to the Tennessee Coal & Iron Company and the negotiations were under way at the time of the first outbreak of the Amalgamated Association. If the United States Steel Corporation can secure the various iron and steel work in the South, the Amalgamated Association may find it difficult to make a success of its efforts to tie up the steel and iron industry of the country. It may be therefore that the Tennessee Coal & Iron Company will be an important factor in the settlement of the strike.

NEW YORK, Aug. 10.—Cigarmakers of this city have sent a letter to President McKinley asking that the executive power be used for the protection of the cigarmakers of Tampa, against who, the letter says, "unheard of brutalities have been practiced." The letter concludes as follows:

"If the positions were reversed and the capitalists and the merchants were arrested and taken away from their families, the United States Army would have been called out to protect them." At a meeting held by the cigarmakers a resolution was passed in reference to a report that a cigar manufacturer was coming here from Tampa next Monday to make cigars during the strike. It said: "No man shall make a cigar for a Tampa manufacturer until the strike is over."

## ELKS' EXCURSION

Salem to Tacoma and Return.

Salem Lodge No. 336 B. P. O. Elks will run an excursion to Tacoma and return on August 15, selling two classes of tickets.

One from Aug. 15 to Aug. 19 Inc. for \$5.50.

One from Aug. 15 to Aug. 25 Inc. for \$9.00.

Leaving Salem at 5 p. m. Thursday, arriving at Tacoma 5:20 a. m. Friday. Tickets on sale at Patton Bros. and Burkhardt's Book Stores, J. J. Daly's, Joseph Meyer, J. J. Johnson's and Geo. E. Waters. Any information in regard to excursion will be furnished by F. W. Durbin.

All persons desiring to procure excursion tickets must do so before Aug. 12, 1901. 8 3 101

## Look Out!

The new third party is in the field, but when it comes to arousing interest that more vital to your pocketbook, the low prices are certainly doing the trick. Our eight day clocks at from \$3.00 are beauties.

## BRITISH POLICY

Of Confiscation and Banishment in South Africa Not Practical

Military Men Say it Must be Fought Out Day by Day and Man for man.

NEW YORK, Aug. 10.—Commenting upon the new policy in South Africa, the London correspondent of the Tribune says: The new policy of reprisals in South Africa is the chief theme of the leader writers and of political gossip at Westminster. Opinions vary according to the temper and prejudice of those discussing it, but there is confidence that General Kitchener's proclamation will shorten the campaign. The penalties imposed are not considered practical by the best informed men. The menace of permanent banishment and disfranchisement upon property will not be likely to frighten the fighting Boers, who have lost everything they own except the rifles and the powder carried by them. Practical men are asking how this proclamation can be brought under the eyes of the obstinate burghers in the field before September 15, and what induce the Ministers to believe that it will have any other effect than to prolong the conflict. There can be no effective method of compelling the men in arms to pay for the keep of their families after that date, nor enforcing exile when the war is over. The new policy is not criticized on the ground that it is essentially inhumane, but because it lacks common sense. The whole policy of collecting the Boer families in concentration camps has been open to criticism as a measure for relieving the combatants from the necessity for feeding and taking care of their families, and thereby for prolonging the war. Now that the general result is perceived it is a sign of weakness for the government to imagine that the system can be abandoned and board money collected from the obstinate burghers.

Military men do not hold General Kitchener responsible for the proclamation, but assert that the terms have been dictated from the Colonial Office. They ridicule the idea that the campaign can be brought to an end by manifestos, promises and menaces, and contend that there is no substitute for the work of wearing out the enemy day by day and man for man.

NEW YORK, Aug. 10.—It is reported in well-informed circles that the United States Steel Corporation has made certain advances to the managers of the Tennessee Coal & Iron Company and allied industries in the South by which all the Southern iron and steel works will come under the control of the United States Steel Corporation, says the Tribune. While the report mentioned could not be verified in official quarters, it was said on excellent authority, that negotiations have been under way for the past year for the purchase by the big steel trust of the Tennessee Coal & Iron Company.

It is also learned that leading interests in the United States Steel Corporation have been in conference with the banking powers behind the Tennessee Coal & Iron Company, but the result of the conference has not yet been known. A few months ago the United States Steel Corporation submitted certain proposals to the Tennessee Coal & Iron Company and the negotiations were under way at the time of the first outbreak of the Amalgamated Association. If the United States Steel Corporation can secure the various iron and steel work in the South, the Amalgamated Association may find it difficult to make a success of its efforts to tie up the steel and iron industry of the country. It may be therefore that the Tennessee Coal & Iron Company will be an important factor in the settlement of the strike.

## A HOT TIME IN ITALY

Telegrams from Rome today say nothing like that heat wave which is scorching all Italy been known within living memory.

Vineyards in whole districts been shriveled up and ruined.

The seawater is so warm that bathing has been abandoned.

## MARKET PRUNES

SAN JOSE, Cal., Aug. 10.—The directors of the California Pruned Fruit Association have placed prunes on the market, but at an advance of 1 1/4 of a cent, making the basis price 3 1/4 cents.

In the order fixing the price and putting the fruit on the market it is distinctly stated that the right to stop sales and change the price is reserved. The association will not agree even to sell as much as 100 carloads. Relations between the association and the California Packers' Company are strained, and unless some differences are settled it is said the association may market and sell directly before many days without the agency of the Packers' company. A brisk demand is reported here for all kinds of dried fruit with an advancing market.

## MODEST DEPEW

NEW YORK, Aug. 10.—Senator Depew is almost the only prominent American in London, says the Tribune's London correspondent. He has accepted no invitations to country houses and has avoided publicity as much as possible. The Senator will spend another week in London.

## ABANDON STEAMER

St. Johns, N. F., Aug. 10.—The wreck of the steamer Actis, which lies on the rocks west of Cape Race, has been abandoned. A high north wind is throwing a heavy sea against the rocks and tearing assunder the steamer's forepart.

## JACK WINTERS CONFESSES TO TAKING THE GOLD

And Takes the Officers to the Spot Where He Sunk it

GOLD BARS ARE IN THE BAY AND BEING LOCATED BY WINTERS

San Francisco Officers and Sheriff Veale Have a Scrap for the Prisoner—Smelter Officers Confident their Gold Will all be Recovered in the Near Future.

SAN FRANCISCO, Aug. 10.—Jack Winters, who was arrested for Selby Smelting Works robbery, has confessed the crime and so far \$180,000 worth of bullion has been recovered from the bay where he had sunk it. For three days detectives have tried all sorts of intimidation to make Winters confess, but their threats apparently had no effect upon him.

Finally he asked to see Superintendent Robb of the works, who he said was the only friend he had. In his conversation with Robb, Winters' manner indicated that he knew where the gold had been hidden. Robb told him that they had a strong case against, that he would be sent to prison for 30 years. He said:

"You will be an old man when you get out and it will do you no good to hide the gold. We know it is hidden in the water near the works and we will search every inch. You may be sure that the gold will be found before you get out of prison." Winters finally weakened and told Robb that he had taken the gold, and would take him to the spot where it was hidden.

The criminal in company with Superintendent Robb and a force of detectives left on the tug last night for Crockett. There they waited all night for low tide. Winters pointed out the place at the end of the railroad wharf behind the coal bunkers. The mud is about four feet deep, covered by a foot of water. When the tug first reached Crockett Winters pointed out the spot in the water where he said he had thrown the gold.

This morning Winters himself got into the mud and water up to his neck and for an hour and a half groped for the missing bullion. Up to 10 o'clock \$110,000 worth had been recovered. It is now only a question of careful search to find the rest of the \$280,000 Winters claim that he did the job all alone.

SAN FRANCISCO, Aug. 10.—The mystery of the great bullion robbery at the Selby Smelting Works will probably be entirely cleared up before night, and the missing gold may all be recovered. It is believed that John Winters, the suspect now in custody, has made a full confession and has declared that the treasure is lying in the shallow water of Crockett Straits. The confession is said to have been made in the office of Captain of Detectives Seymour after the prisoner had been examined at great length by ex-Chief of Police Lee and Superintendent Sayers of the Pinkerton agency. The officials then charged a tug and taking Winters with them went up the bay to the smelting works. Here several detectives were taken on board and the tug proceeded to Crockett, where it was proposed to spend the night. Here the trouble occurred between the San Francisco officers and Sheriff Veale of Contra Costa County, in which the robbery was committed. The sheriff demanded the custody of the prisoner and this being refused, procured a search warrant. A tug was arranged, however, and early this morning the entire party boarded the tug and started for Martinez, the county seat. Winters was handcuffed and guarded with the utmost vigilance. Sheriff Veale stated that he understood that a complete confession had been made, and Superintendent Von der Lippe said:

"Thank God, our anxiety is over. We will soon have the gold back." No more definite statements have been made, but a gasoline launch has been over to Crockett and the tug is provided with grappling apparatus which it is understood will be put in use today. The two bars of gold found on the beach lay on the rocks just beyond the railway tunnel farthest from the smelting works. To prevent the tide from washing into its roadway, the Southern Pacific has dumped hundreds of tons of boulders along the beach as a breakwater. The bars of gold were found on these rocks and in the bay just off this point is where the gold is believed to have been hidden. The water is shallow and as the bullion is packed in heavy leather sacks which would easily resist the force of the tide and could not be carried into the channel, the recovery of the gold is

thought will not be a difficult undertaking and especially as Winters is expected to point out its exact locality. It is still a mooted question whether the robbery was the work of one man or of several. Many circumstances that have come to light seem to indicate the complicity of someone within the works and the manner in which the opening was drilled in the floor of the safe is thought to show such a knowledge of interior arrangements as could not have been acquired by Winters.

H. Windall, proprietor of the boarding house near the Selby works, is confident that there were pickets at both ends of the railroad tunnel. One night about two weeks ago he was returning from Crockett in company with his wife and as they approached the railway tunnel two pistol shots were fired. He also says he heard a whistle in the night that his boarders have also spoken of hearing shots and whistles.

## MINT ROBBER HELD

WASHINGTON, Aug. 10.—Chief Wilkie of the secret service treasury department has received a telegram announcing that Walter Dimmick, former chief clerk of the San Francisco mint has been arrested there upon two charges. One charges Dimmick with the theft of \$30,000 in gold from the United States mint in San Francisco, and the other charge was made by Superintendent Leach, accusing Dimmick with the misappropriation of funds.

## STEAMER BOMBED

NEW ORLEANS, Aug. 10.—What is regarded as an attempt of a Boer sympathizer to blow up a British transport occurred shortly after midnight, when a terrible explosion occurred at the stock landing where the Harbin steamship Mechanician is moored. The Mechanician is to carry mules to South Africa. Most of the crew of the ship were asleep. The damage done was not serious. It is believed the explosion was from outside and that some sort of a bomb or torpedo was used.

## HUMBERT'S ASSASSIN

Granotti Said to Have Sailed For South America.

NEW YORK, Aug. 10.—Laguni "Granotti" is not known among the Paterson, N. J., anarchists, says the World, but Luigi Granotti is well known to them and it is probable that he is the man under arrest. Granotti was known as a rabid anarchist. He was the founder of "La Question Sociale," the organ, and was the closest friend of Bresci, boarding with King Humbert's assassin at Paterson. Last February he sailed for Europe, arriving there just one month ahead of Bresci. Benjamin Massotti, the present leader of the "Group for the Right of Existence" in Paterson, said: "I know Granotti well, but I do not know Luigi Granotti and Bresci met in France and went to Italy about the same time. When Bresci arrived at Monza he telegraphed to Granotti, who was in another city, and I am quite certain Granotti was present when Humbert was killed. Granotti was chased through Italy, Germany and France by the Italian government detectives. While he was hiding in Paris we received a letter from him and a subscription was at once taken up for him. We sent him enough money for South America and I was under the impression that he had sailed for there."

## BOB EVANS CENSURED

WASHINGTON, Aug. 10.—The Navy Department has reprimanded Admiral Robley D. Evans, acting upon a complaint made by former secretary of the Navy Chandler, for criticisms of the latter in the Admiral Evans's book, "A Sailor's Log." The latter referred to his act as reprehensible and censured Admiral Evans "for this breach of obligation imposed upon him as officer of the navy."

## CAPTURED BY BOERS

LONDON, Aug. 10.—A dispatch from Lord Kitchener dated from Pretoria today says: "The block house near Bradford, Orange River Colony, was rushed and captured by the Boers after severe fighting on the night of August 7. Elliott has captured 30 prisoners and large quantities of stock and wagons."
